SEO / AI USEFULNESS – YOUR WEAKEST MARK, AT 2.4/5

Build one answer-first FAQ block. Take the questions from your last twenty quote calls and answer each in writing, the way you'd say it at the kitchen table. It's what gets you into Google's AI answer — and the proof a frightened buyer came looking for.

THE QUESTIONS TO ANSWER ARE ALREADY WRITTEN

The independent homeowner guide for your trade lists what your buyers are actually asking — read it, then answer those questions on your site. That single move is what lifts the mark above.

The /45 design score is an expert nine-dimension rubric, AU sample, at the audit date – per-trade samples are small (n 7), so read it as a directional signal, not a population stat. The Google review benchmarks draw on hundreds of listings (510 renovation builders nationally) and are the harder number. A general industry benchmark, not advice for your business – confirm with current evidence from your own market.
